

HB Trailer

Long Haul
Trailer

The Hawkinson HB Trailer tread was designed for high speed, over the road applications.

Special Features

- Flat tread surface allows even wear
- Resists cupping and fast shoulder wear
- Tread depth is 14/32

Retreading is essential for the environment, there are 300 million tires currently stockpiled, and 281 million tires generated annually. Coupled with the fact it requires 22 gallons of oil to manufacture a new truck tire versus 7 gallons of oil to retread a truck tire, Hawkinson is continuing to **“Go the Extra Mile”** for you and the environment... **one retread at a time!**
