

Lug Track

On/Off Road
Drive

The Hawkinson Lug Track is an aggressive high powered design for severe service applications at slow speeds and short distances.

Special Features

- Tapered grooves are self-cleaning
- Designed for on/off road applications
- Tread depth is 28/32

Retreading is essential for the environment, there are 300 million tires currently stockpiled, and 281 million tires generated annually. Coupled with the fact it requires 22 gallons of oil to manufacture a new truck tire versus 7 gallons of oil to retread a truck tire, Hawkinson is continuing to **“Go the Extra Mile”** for you and the environment... **one retread at a time!**
