

Skid Steer

Special Drive

The Hawkinson Skid Steer is a specialty design for use on hard surfaces and off road. Can be used for grading without disturbing or breaking up graded surfaces.

Special Features

- Aggressive design for sand and clay
- Tread depth is 32/32

Retreading is essential for the environment, there are 300 million tires currently stockpiled, and 281 million tires generated annually. Coupled with the fact it requires 22 gallons of oil to manufacture a new truck tire versus 7 gallons of oil to retread a truck tire, Hawkinson is continuing to **“Go the Extra Mile”** for you and the environment... **one retread at a time!**
