

HDA

Long Haul Drive

The Hawkinson HDA is a fuel efficient, long mileage tread design for line haul or city P&D service.

Special Features

- Good traction in wet or dry conditions
- Tapered grooves are self-cleaning
- Tread depth is 21/32

Retreading is essential for the environment, there are 300 million tires currently stockpiled, and 281 million tires generated annually. Coupled with the fact it requires 22 gallons of oil to manufacture a new truck tire versus 7 gallons of oil to retread a truck tire, Hawkinson is continuing to **“Go the Extra Mile”** for you and the environment... **one retread at a time!**
