

HYSpeed

**Regional
Trailer**

The Hawkinson HYSpeed 5 rib tread is a lightweight design for today's modern tires.

Special Features

- Economical
- Low rolling resistance for free rolling positions
- The tread depth is 12/32

Retreading is essential for the environment, there are 300 million tires currently stockpiled, and 281 million tires generated annually. Coupled with the fact it requires 22 gallons of oil to manufacture a new truck tire versus 7 gallons of oil to retread a truck tire, Hawkinson is continuing to **"Go the Extra Mile"** for you and the environment... **one retread at a time!**
