

MS4

Regional Drive

The Hawkinson MS4 is an aggressive drive axle design giving excellent road grip and traction.

Special Features

- Good tread life due to smooth riding design
- Tread depth ranges from 18/32 to 22/32

Retreading is essential for the environment, there are 300 million tires currently stockpiled, and 281 million tires generated annually. Coupled with the fact it requires 22 gallons of oil to manufacture a new truck tire versus 7 gallons of oil to retread a truck tire, Hawkinson is continuing to **“Go the Extra Mile”** for you and the environment... **one retread at a time!**
