

THE INDUSTRY'S FIRST **100%** DIGITAL TIRE TESTING MACHINE

D-350/D-250

\$3,499.00 - \$2,900.00

Combine the hand-held **D-350** with any tire spreader and find a nail hole on the go! Featuring an LED light on the hand-triggered handle, the D-350 really gives your operator the flexibility to get the wand where it needs to go and see what he's doing! The convenient wall mount allows you to store the D-350 away when not in use. A superior solution for the shop that only inspects 1-20 tires a day!

The foot-operated **D-250** is a standard flaw detector with a double-insulated wand and computer board. A good solution for the shop that only inspects 1-20 tires a day!

2 OPTIONS	MACHINE OPTIONS					OPERATING STANDARDS	
MACHINE	FIX ME LIGHT	FLAW ALERT	FABRIC & STEEL	SPREADER STYLE	CE CERTIFICATION	TIRES PER 8 HOURS	INSPECTION METHOD
D-350	✗	✗	✓	Not Included	✗	1 - 20	MANUAL Handheld Probe 2 - 3 rotations
D-250	✗	✗	✓	Not Included	✗	1 - 20	MANUAL Handheld Probe 2 - 3 rotations

THE HAWKINSON DIFFERENCE
