

THE INDUSTRY'S FIRST **100%** DIGITAL TIRE TESTING MACHINE

NDT-III DIGITAL PRO

\$35,750.00

The top of the line NDT-III finds more flaws than any other NDT on the market, has the smallest footprint available, and comes with the Fix Me Light included. Our patent pending Fix Me Light alerts the user when the machine is not running optimally and could result in missed flaws. Your machine should produce 55 Sparks per Second (SPS), but as carbon balls, resisters, and capacitors age, the SPS can decrease significantly. The Fix Me Light notifies you when the spark rate drops below 45 SPS! Other attractive features include an adjustable table spreader with lit spread arms that allow the operator to get a better view of the tire. CE Certification upgrade available.

MACHINE OPTIONS*					OPERATING STANDARDS	
FIX ME LIGHT	FLAW ALERT	FABRIC & STEEL	SPREADER STYLE	CE CERTIFICATION	TIRES PER 8 HOURS	INSPECTION METHOD
✓	✓	✓	Table	OPTIONAL	50 - 100	AUTOMATIC Fixed Probe
