

THE INDUSTRY'S FIRST **100%** DIGITAL TIRE TESTING MACHINE

MICRO-NDT-FSA

\$17,500.00

The cutting-edge solution for the lighter volume shop! The portable Micro-NDT is designed to work with your existing spreader, but still features our automatic digital technology. The loose probe is more accurate than a handheld probe and is a great option for shops that inspect 50 tires or less in a day.

MACHINE OPTIONS*					OPERATING STANDARDS
